

Penguin Young Readers Chants

The Amazing Universe

American English

Level 4

Chant 1.

How many planets
in our solar system?
One, two, three, four,
Five, six, seven, eight, nine

Where are we
in our solar system?
one, two, three
from the sun

How many planets
in our solar system?
One, two, three, four,
Five, six, seven, eight, nine.

Chant 2

Does anyone live on Mars?
No!
Does anything live on Mars?
No!
Once there was water on Mars
So was life there too?
Oh!

Do aliens live on Mars?
No!
Are Martians really true?
No!
There are Martians in movies
and Martians in books?
So...

Chant 3

Millions of light years
Billions of stars
Everything's so BIG in our universe

Planets have orbits
Galaxies spin
Everything's MOVING in our universe

Stars come, stars die
Black holes pull
Everything's AMAZING in our universe
